

WARHAMMER UNDERWORLDS – WYRDHOLLOW RIVALS TOURNAMENT

Mythicos HQ's inaugural Warhammer Underworlds Tournament. This tournament is meant as an introduction to Warhammer Underworlds and the Rivals format. Game matches will be played best of 3. Prize Support TBD.

Current errata can be found here: <https://www.warhammer-community.com/faqs/#warhammer-underworlds>

When: 07/15/23 @ 10am

Where: Mythicos HQ

What to Bring: Bring the Warband you plan to play with and the Rivals Deck you plan to use with them. You will also need the boards you wish to play with, tokens, and Warhammer Underworlds dice.

Limited amounts of boards, warbands and decks will be available with the T.O. on a first come first served basis.

Entry Fee: \$10

Tournament Style: Swiss Pairing with Chess Clocks (Deathclock) – 30 min per player. Overall round timer of 3 hours per round. 3 rounds in total. First Tiebreak will be strength of schedule. Second Tiebreak will be total Glory scored.

Painting Requirements: As this is an introductory event painting is not required, but highly encouraged. There will be prize support for the best painted warband at the tournament.

Warbands: All Warhammer Underworlds warbands that have at least 12 faction objective cards and 20 faction powers cards, of which no more than half can be gambits, can be used in the Rivals Format.

Where a warband does not have enough faction cards for a complete objective and or power deck, as is the case with some older warbands, they can only be used in the Rivals format with a Universal Rivals deck.

Deck-Building: In the Rivals Format, a warband must have the following:

- A Rivals deck that only includes cards with that warbands symbol
- A Universal Rivals deck from the Harrowdeep, Nethermaze, Gnarlwood, or Wyrdhollow seasons (a Rivals deck season can be found on its box)

Boards:

The following game boards may be used in the Rivals format:

- Starter Set Boards (Soul Refractor, The Cursed Oubliette, Shyishian Stardial, The Mirror Well)
- Harrowdeep Boards (Ultimatum Engine, Profane Larder, Chamber of Genesis, Hall of Sublimation)
- NetherMaze Boards (The Inevitable Morass, The Tortured Coil, Oblivion's Pillars, The Abyssal Depths)

- Gnarlwood Boards (The Mistmarsh Tangle, The Stricken Swamp, Visceral Coil, Moltscap)
- Wyrdhollow Boards (The Seamsplit Folly, A Root-hall Bleed, A Fleshwrithe Vortex, The Tendon Hollows)

Best of 3 Games: Play up to 3 games of Warhammer Underworlds to decide the winner of the match.

Players cannot use the same side of a game board more than once in each match in an event – this means they must use a minimum of two different game boards in total (giving them a choice of 4 game board sides)

In addition, in the second game of a best of three match, do not roll off in step 2 of set up (the place the boards step). Instead, whichever player lost the roll-off in the first game is assumed to have won the roll off in the second game. If the match is not decided after the second game, roll off as normal in this step of the third game.
